# REACTAMINE<sup>®</sup> POLYUREAS

## 1KP PRIMER

**CODE: 1KP Primer**

### PRODUCT DESCRIPTION:

*ReactAmine*<sup>®</sup> **1KP Primer** is a modified polyurea dispersion with phenolic resin, and is designed for a wide range of rigid and flexible substrates such as wood, metal, vinyl, concrete and other plastic parts. **1KP Primer** is an excellent primer for concrete, metal, PVC and wood prior to applying polyureas. A key application is coating polyurethane and polyurea bed liners to improve weatherability and color retention. This product has been developed to exhibit a combination of film hardness, flexibility, good water and abrasion resistance, and excellent solvent resistance. This product can be ordered with antimicrobial additives.

### PRODUCT SPECIFICATIONS:

Solids Volume%	47
Solids WT%	57
Cosolvent Contents WT%	
	H <sub>2</sub> O    43
	N, methyl Pyrrolidone    10

### COVERAGE:

1 gallon = 100 ft<sup>2</sup> @ 4 mils

### TYPICAL PHYSICAL PROPERTIES:

Viscosity@ 275° F	CPS	50-300
Weight/Gallon	lbs	8.9
Appearance		Milky, white liquid
PH		7.5 – 9.5
Freeze Thaw Stability		Passed 5 Cycles

### TYPICAL FILM PROPERTIES:

Dry to touch	min	5
Film Appearance		Clear
Tensile Strength	psi	5980
% Elongation		210
Hardness, Pencil		2H
